\* This warning is applicable for all management plan articles mentioned in the column before: i.e. C2.2, C2.3, C2.4, C3.1, C4.1, C4.2 and C4.3. If a vessel has already been warned once for infringement of any of these articles, a subsequent infringement of any of these articles shall count as a second infringement.

A warning, penalty or exclusion is given to a particular member, for a particular vessel. If a member owns more than one vessel, it only applies to the vessel where the infringement has been found. If the vessel is sold (minimum half the ownership) to another fisherman or company, previous infringements shall not count against the number of infringements for that vessel.

Exclusion: An exclusion from the management plan (and list of MSC-certified vessels) is valid for at least 12 months. Re-inclusion after this period is only possible, when the independent control has checked the vessel again and has found no infringements.

Sunset clause: When the date of entry into force of a previous warning or penalty notice is more than 2 years past, this infringement no longer counts against the number of infringements for that vessel.
